DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figures 1-3 contains handwritten drawings and characters. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance. The Examiner recommends the Applicant to produce an computer generated drawings, at least Figure 2 must be typed.

Allowable Subject Matter

2. Claims 1-31 are allowed.

The following is an examiner's statement of reasons for allowance: The Applicant's invention is directed to a method of sending an authentication key to a calling party. The Applicant arguments regarding the U.S. Patent 6,021,190 to Fuller reference not sending an authentication key and identifying a key based on calling identifier is persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
